## 50 years of caring 50 years of sharing

The Yarmouth Hospital Foundation's celebration of its 50th anniversary is also a celebration of the generosity of the people of Digby, Shelburne and Yarmouth Counties.

"People want to see actions that will serve them and their families and their loved ones," says Board Chair Dr. Harold Cook.

"Giving to the hospital is primary in most people's consideration, so we appeal to that and promise that we will be good stewards."

If you look at Facebook or Instagram, or listen to Y95, you've probably seen or heard some of the stories that tell our story:

- About the doctors and nurses, therapists and technicians, cleaners and cooks — all essential to the Yarmouth Regional Hospital team.
- About the sponsors that enable us to present the the WE CARE Radiothon, Jody Shelley's Golf Fore Health and Spring Gala

*Dr. Harold Cook*

- who have come through with financing support despite the pandemic.
- About longtime donors whose commitment to sustaining our regional hospital never fails to astonish and the young donors who are just starting out on a lifetime of philanthropy.
- About how the Foundation invests in healthcare in big and small ways.
- And about history — of the Foundation and of the people who have been instrumental in building our regional healthcare system.

*"As long as you're breathing, it's never too late to do some good."*— Maya Angelou
